

# Green Earth Rockets instructions

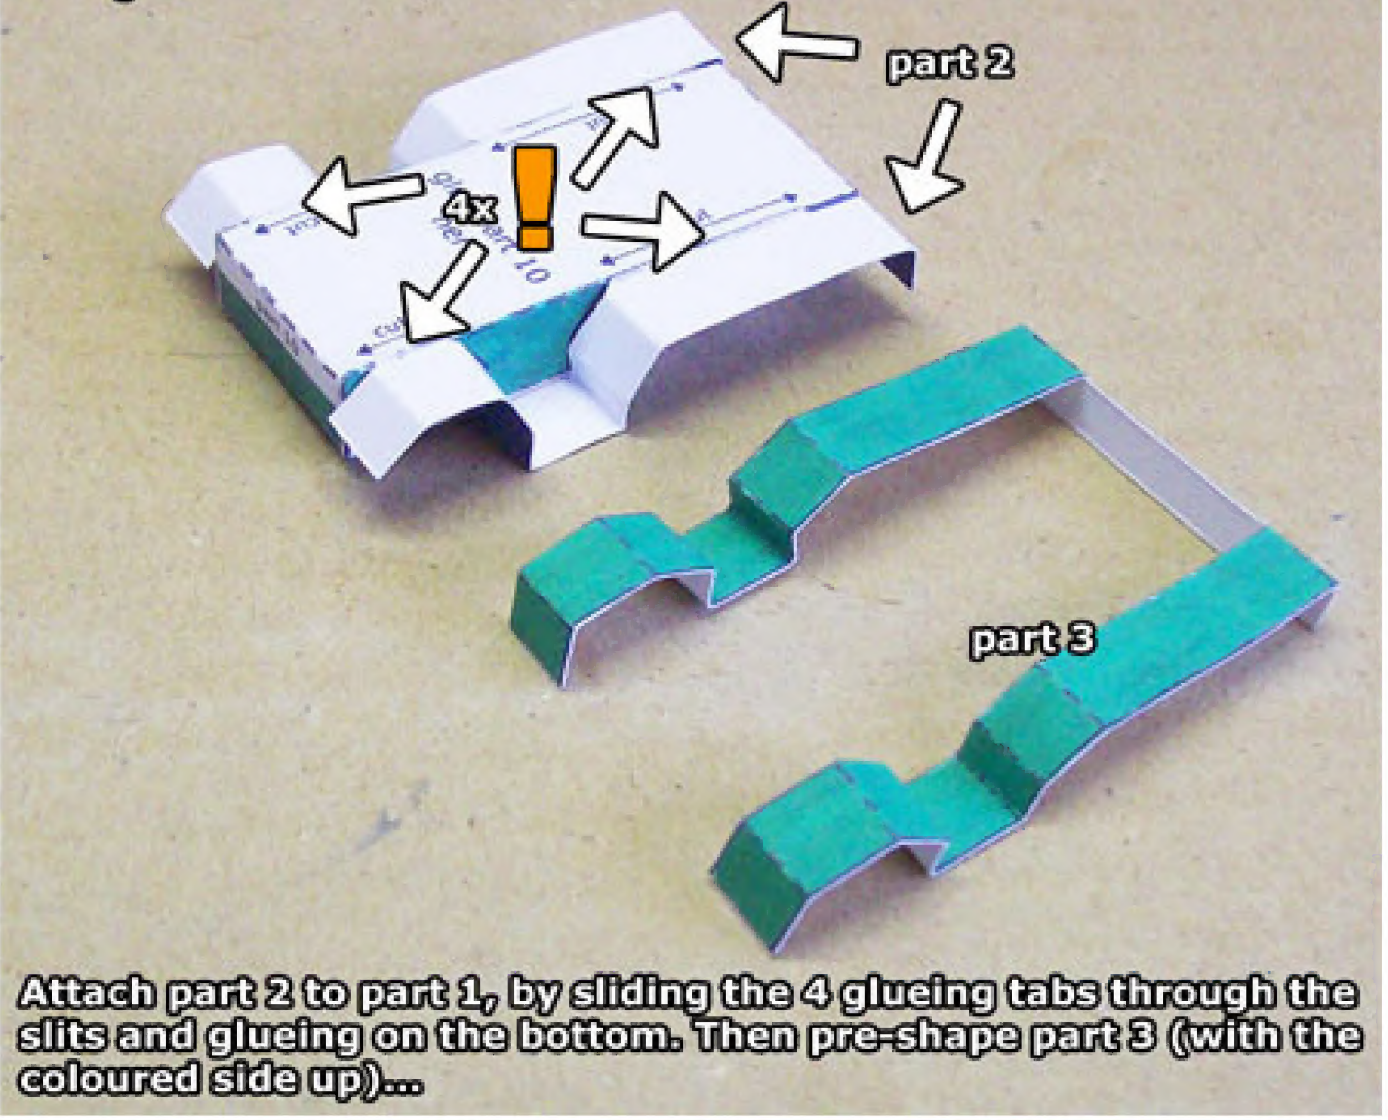

## step 1

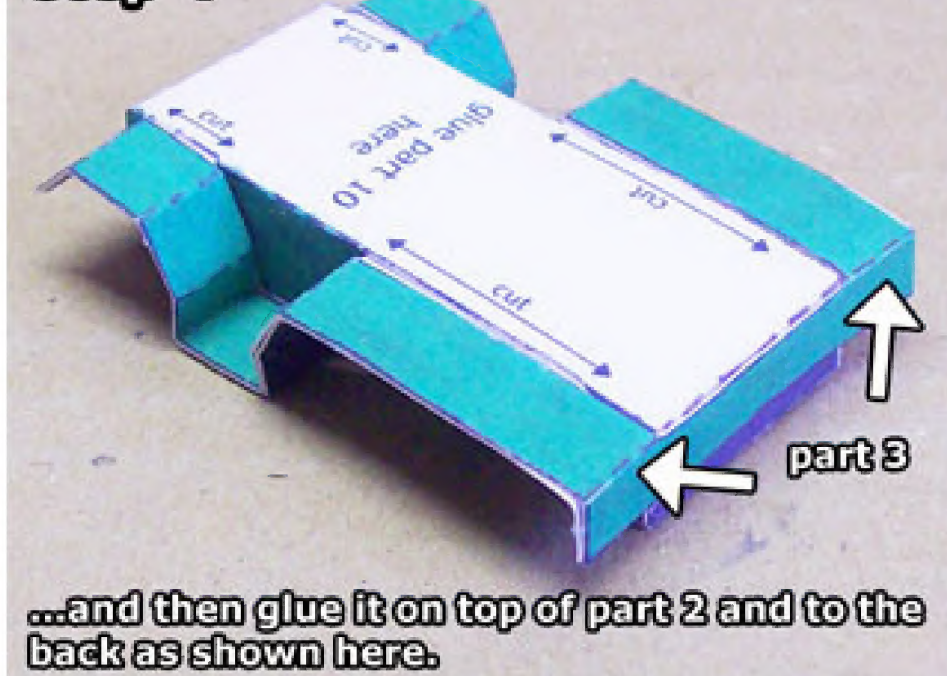

## step 2

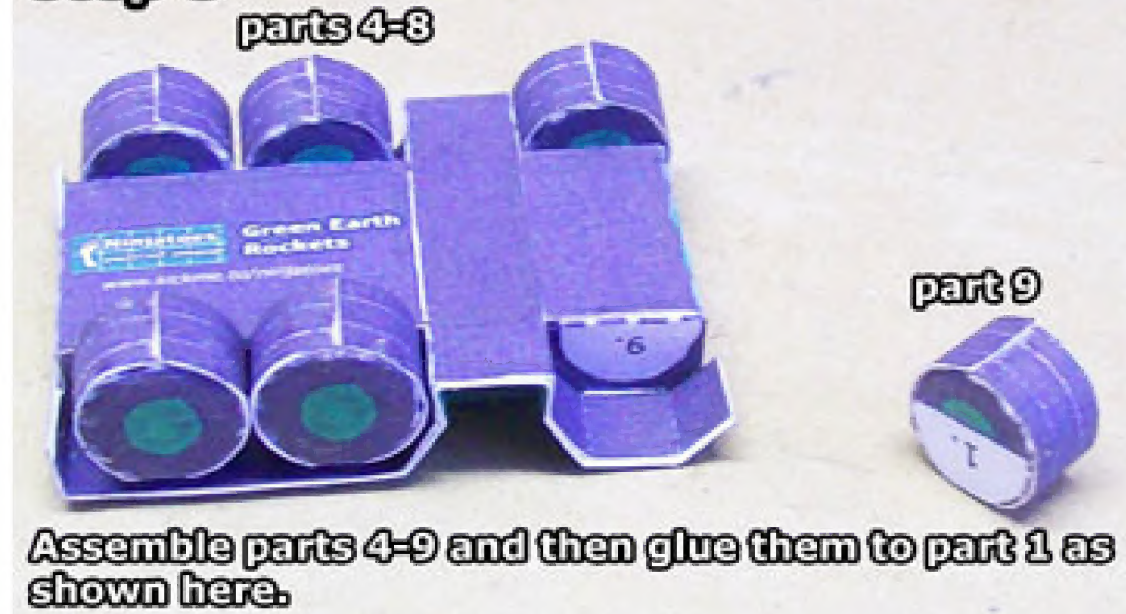

## step 1

## step 4

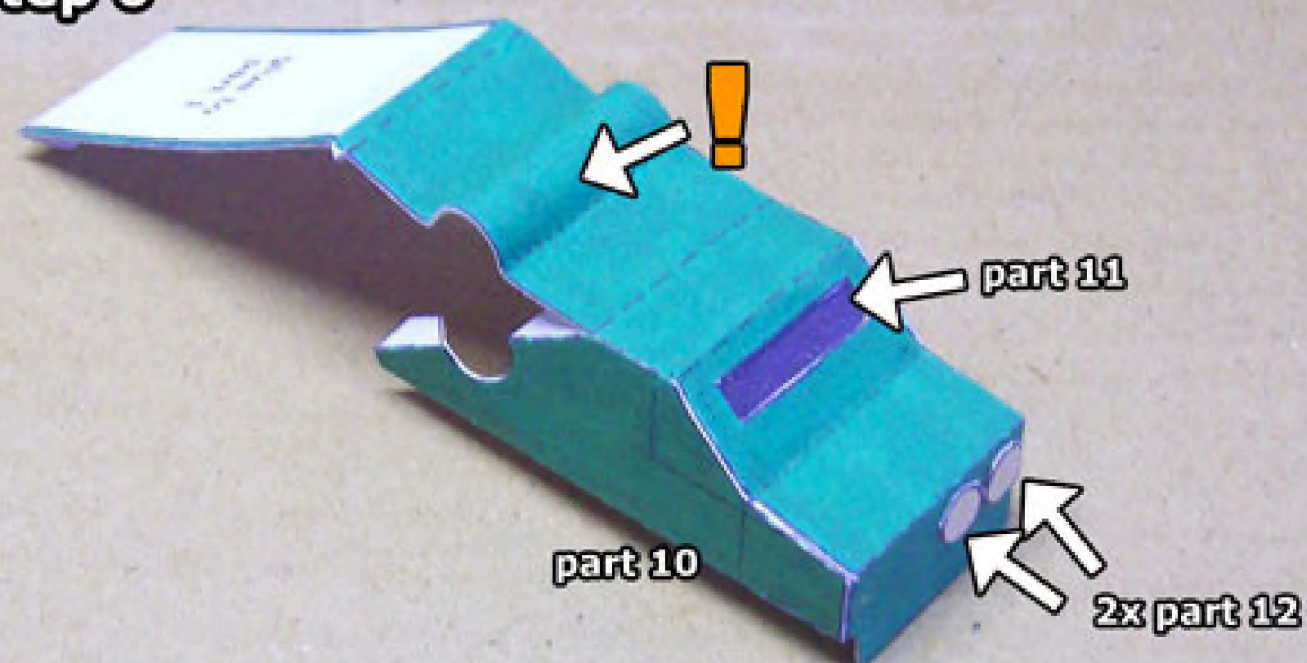

## step 5

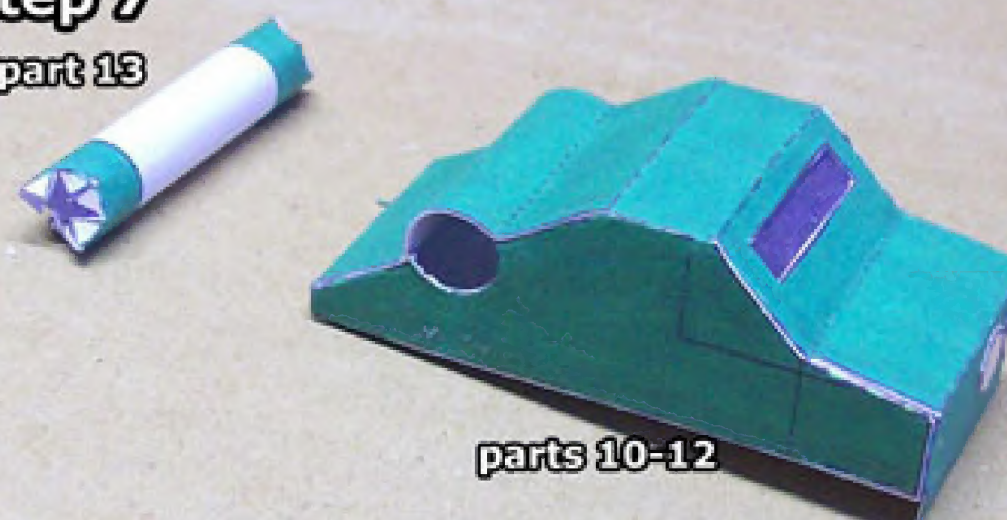

## step 6

Pre-shape the back of part 10 to create a "tunnel", but before closing part 10, glue part 11 underneath the hole at the front and parts 12 at the front.

## step 7

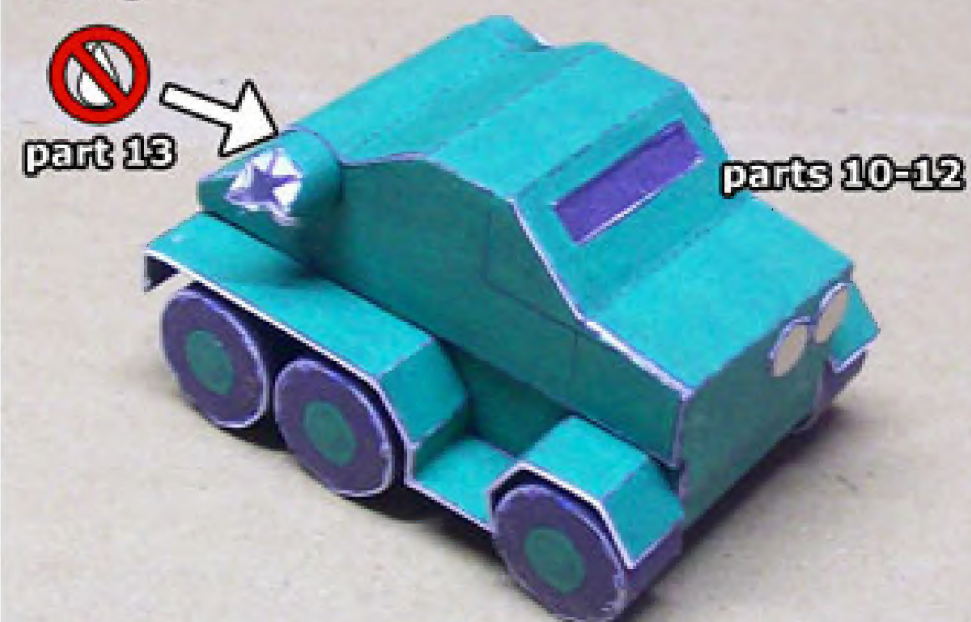

part 13

parts 10-12

Close the back and bottom of part 10, assemble part 13...

## step 8

...and then glue parts 10-12 on top of part 1, and push part 13 through the "tunnel" at the back (DON'T use any glue for this!)

## step 9

part 16

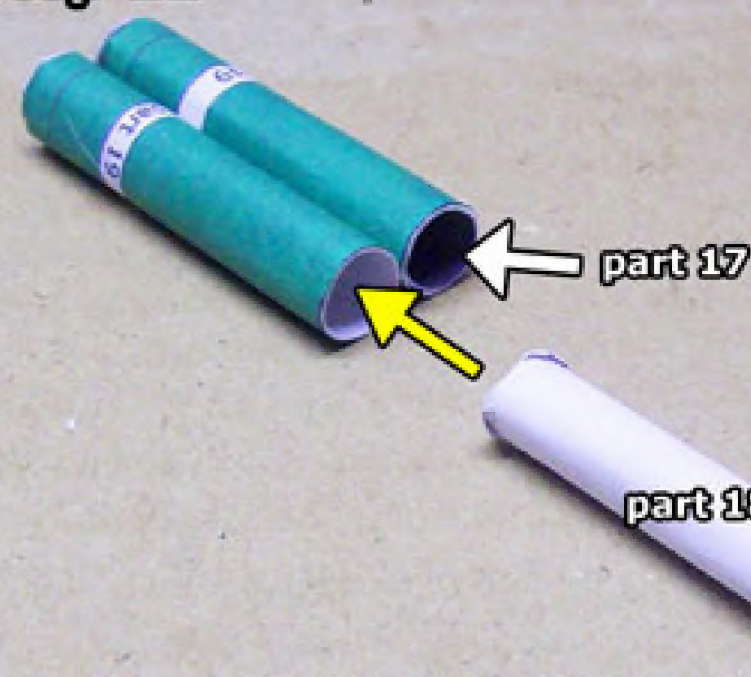

Assemble parts 14 and 15 and cut out part 16.

## step 10

Glue parts 14 and 15 together along their seams, and then glue part 16 to the back as shown here.

## step 11

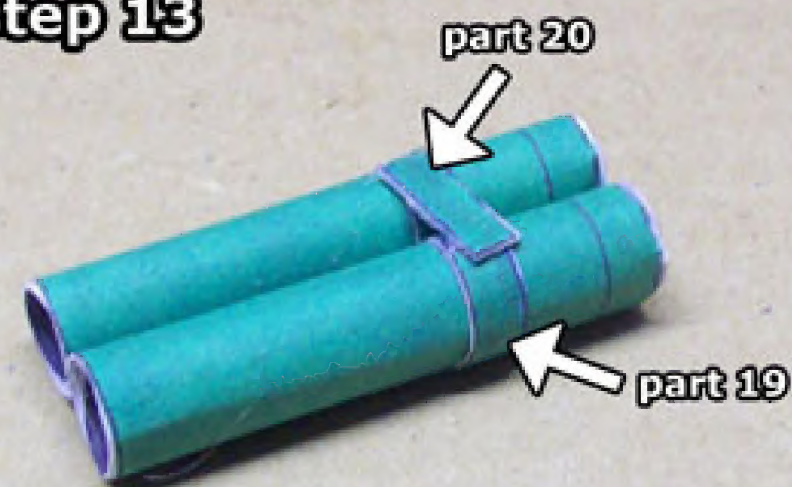

Assemble parts 17 and 18 with the coloured sides in, and then glue them inside parts 14 and 15.

## step 12

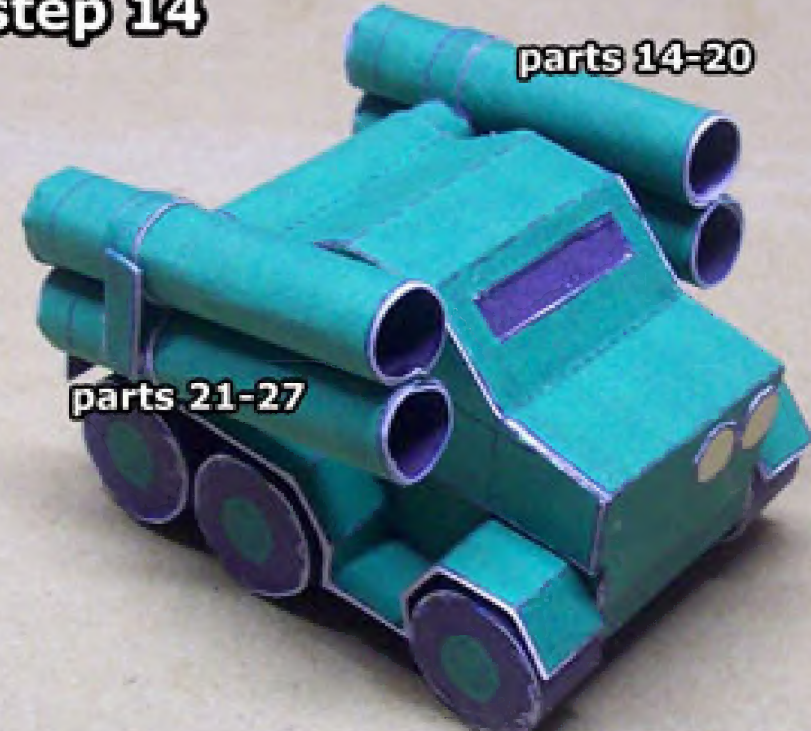

Fold double part 20 and pre-shape part 19...

## step 13

...and then glue part 19 around parts 14 and 15 and glue on part 20 as shown here.

## step 14

Next, glue parts 14-20 to the left side end of part 13, and then assemble parts 21-27 and glue it to the other end.

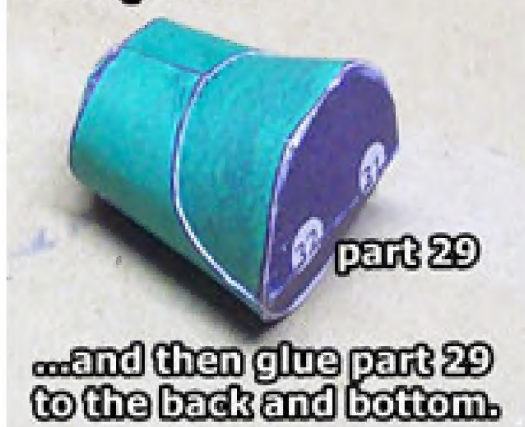

## step 15

To build the little soldier, start by assembling part 28...
